#### HIBBETT REPORTS FOURTH QUARTER AND FISCAL 2024 RESULTS

- Q4 Diluted EPS of \$2.55 & Full Year Diluted EPS of \$8.17, in Line With Recent Guidance
- O4 Comparable Sales Decrease 6.4% Versus a 15.5% Increase in the Prior Year Period
- Fiscal 2024 Full Year Net Sales Growth of 1.2%
- Issues Fiscal 2025 Outlook

BIRMINGHAM, Ala. (March 15, 2024) - Hibbett, Inc. (Nasdaq/GS: HIBB), an athletic-inspired fashion retailer, provided financial results for its fourth quarter and full year ended February 3, 2024, ("Fiscal 2024") and business updates.

Mike Longo, President and Chief Executive Officer, stated, "We are pleased to report a solid financial performance for the fourth quarter of Fiscal 2024, as we continued to execute our strategy in a dynamic and challenging retail environment. Notably, we finished the year with \$1.73 billion in sales, a new full fiscal year record for Hibbett. Our sales performance for the fourth quarter reflects the busy holiday selling season, which was in line with our expectations. During the quarter, we also benefited from new product launches and a favorable customer response for our popular footwear brands. The fourth quarter also benefited from our integrated Hibbett Rewards X Nike Membership, which brings together the Hibbett and Nike loyalty programs and supports sales growth across all retail channels. This loyalty partnership will provide exclusive shopping experiences, personalized content, and early access to the latest product launches for our Connected members."

Mr. Longo continued, "We are proud of our performance over the past year, demonstrating our team's ability to consistently execute our strategy and deliver positive financial results. As we look ahead to Fiscal 2025, we will continue to leverage our proven business model to meet customer demand and drive additional market share. We will look for opportunities to enhance our product mix in line with current consumer spending patterns and ensure we have the right inventory mix across our sales channels."

Mr. Longo concluded, "As we continue to extend our market reach, we believe Hibbett is building momentum, and our sales guidance for the year ahead reflects this confidence. In Fiscal 2025, we plan to continue to make significant investments in our store footprint, customer-facing technologies, and back-office infrastructure. This will impact our profitability growth in the short term but will enhance our value proposition and profitability over the longer term. We remain focused on providing a unique and compelling product assortment supported by our omni-channel platform capabilities and exceptional customer service that allows us to serve our customers wherever and whenever they decide to shop. We look forward to opportunities to continue expanding our Hibbett and City Gear brands while delivering greater value to our customers and shareholders."

#### **Fourth Quarter Results**

The fourth quarter and Fiscal 2024 ended on February 3, 2024. The fourth quarter included 14 weeks of results and Fiscal 2024 included 53 weeks of results.

Net sales for the 14-weeks ended February 3, 2024, increased 1.8% to \$466.6 million compared with \$458.3 million for the 13-weeks ended January 28, 2023. Comparable sales declined 6.4% versus the equivalent 13-weeks in the

prior year. Brick and mortar comparable sales declined 9.2%, while e-commerce increased 6.9% on a year-over-year basis, excluding the impact of the 53rd week. E-commerce represented 18.9% of total net sales for the 14-weeks ended February 3, 2024, compared to 17.4% in the 13-weeks ended January 28, 2023.

Gross margin was 34.5% of net sales for the 14-weeks ended February 3, 2024, compared with 35.2% of net sales for the 13-weeks ended January 28, 2023. The approximate 70 basis point decline was primarily due to lower average product margin of approximately 125 basis points and an approximate 55 basis-point increase in store occupancy costs. Freight, shipping, logistics costs and shrink have improved as a percent of sales on a year-over-year basis, partially offsetting the unfavorable average product margin and store occupancy performance. Freight was favorable by approximately 65 basis points, logistics was favorable by approximately 30 basis points and shrink was favorable by approximately 15 basis points.

Store operating, selling and administrative ("SG&A") expenses were 23.0% of net sales for the 14-weeks ended February 3, 2024, compared with 21.6% of net sales for the 13-weeks ended January 28, 2023. The increase of approximately 140 basis points is primarily the result of the inflationary impact on store wages and the related benefit costs, a growing store base and increased data processing costs associated with the ongoing investment in cloud-based back-office systems and technology.

Net income for the 14-weeks ended February 3, 2024, was \$30.9 million, or \$2.55 per diluted share, compared to \$38.4 million, or \$2.91 per diluted share for the 13-weeks ended January 28, 2023.

During the fourth quarter, we opened 14 new stores and closed 3 stores, bringing the store base to 1,169 in 36 states as of February 3, 2024.

We ended the fourth quarter of Fiscal 2024 with \$21.2 million of available cash and cash equivalents on our unaudited condensed consolidated balance sheet and \$45.3 million of debt outstanding. Inventory as of February 3, 2024, was \$344.3 million, an 18.2% decrease compared to the prior year fourth quarter.

During the 14-weeks ended February 3, 2024, the Company paid a quarterly dividend equal to \$0.25 per outstanding common share that resulted in a cash outlay of \$2.9 million. Capital expenditures during the 14-weeks ended February 3, 2024, were \$20.7 million compared to \$15.4 million in the 13-weeks ended January 28, 2023.

#### Fiscal 2024 Year Results

Net sales for the 53-weeks ended February 3, 2024, increased 1.2% to \$1.73 billion compared with \$1.71 billion for the 52-weeks ended January 28, 2023. Comparable sales decreased 3.1% versus the equivalent 52-weeks in the prior year. Brick and mortar comparable sales declined 4.4% and e-commerce sales increased 4.1%, excluding the impact of the 53rd week. E-commerce represented 16.2% of total net sales in the 53-weeks ended February 3, 2024, compared to 15.6% in the 52-weeks ended January 28, 2023.

Gross margin was 33.8% of net sales for the 53-weeks ended February 3, 2024, compared with 35.2% of net sales for the 52-weeks ended January 28, 2023. The approximate 140 basis point decline was primarily due to lower average product margin of approximately 210 basis points and an approximate 40 basis point increase in store occupancy costs. Freight, shipping, logistics costs and shrink have improved as a percentage of sales on a year-over-year basis, partially offsetting the unfavorable average product margin and store occupancy performance. Freight was favorable by approximately 70 basis points, logistics was favorable by approximately 30 basis points and shrink was favorable by approximately 10 basis points.

SG&A expenses were 23.0% of net sales for the 53-weeks ended February 3, 2024, compared with 22.8% of net sales for the 52-weeks ended January 28, 2023. The approximate 20 basis point increase is primarily the result of increased store wages and data processing costs partially offset by lower professional fees and advertising.

Net income for the 53-weeks ended February 3, 2024, was \$103.2 million, or \$8.17 per diluted share, compared to \$128.1 million, or \$9.62 per diluted share for the 52-weeks ended January 28, 2023.

During the 53-weeks ended February 3, 2024, the Company repurchased 1.2 million shares of common stock for a total expenditure of \$56.1 million, including 47,550 shares acquired from employee holders of RSUs to satisfy tax withholding requirements of \$2.8 million. The Company also paid recurring quarterly dividends that resulted in a cash outlay of \$12.4 million.

Capital expenditures during the 53-weeks ended February 3, 2024, were \$57.9 million compared to \$62.8 million in the 52-weeks ended January 28, 2023. Current year capital expenditures were predominantly related to store initiatives including new store openings, relocations, expansions, remodels and capital associated with general maintenance of our facilities.

#### 53rd Week and Fourth Quarter Change in Accounting Estimate

Total net product sales for the 53rd week of Fiscal 2024 were approximately \$22.9 million. The extra week increased fourth quarter and full year net income by an estimated \$2.6 to \$2.8 million. This translates to an approximate diluted EPS range of \$0.21 to \$0.23 for the fourth quarter and \$0.21 to \$0.22 for the full year. In addition, during the 14-weeks ended February 3, 2024, we recorded a \$3.5 million increase in revenue due to a change in estimate in gift card breakage. This change was supported by the historical redemption pattern of gift cards outstanding and contributed \$0.23 and \$0.22 of diluted EPS to the fourth quarter and full year, respectively.

#### Full Year Fiscal 2025 Outlook

Please note that the fiscal year ending February 1, 2025 ("Fiscal 2025"), will have 52 weeks versus 53 weeks in Fiscal 2024. A number of business and economic challenges we faced in Fiscal 2024 will continue to impact our business in Fiscal 2025. These challenges include the potential for inflation and interest rates to remain elevated, the continued use of promotional activity to drive traffic, ongoing wage pressures, a more cautious and selective consumer, and ongoing geopolitical conflicts. These factors contribute to the complexity and volatility in forecasting Fiscal 2025 results.

Considering the factors noted above, we are providing an overview of our estimated results for Fiscal 2025. Additional commentary and insight will be provided at our upcoming fourth quarter and full year investor call.

#### Sales Guidance

- Total net sales in Fiscal 2025 are anticipated to be flat to up approximately 2.0% compared to our full year Fiscal 2024 results.
- Due to the transition from a 53-week year in Fiscal 2024 to a 52-week year in Fiscal 2025, comparable sales for Fiscal 2025 will be compared to weeks two through 53 in Fiscal 2024. Comparable sales are expected to be flat to down in the low-single digit range for the year. Brick and mortar comparable sales are expected to range from flat to negative low-single digits. Both total e-commerce revenue and comparable e-commerce revenue is anticipated to be up in the mid to high-single digit range.
- Net new store growth is expected to be approximately 45 to 50 units. The first quarter is projected to have the lowest growth with net new units anticipated to be more evenly distributed across the remaining three quarters.

#### **Additional Guidance Commentary**

- Gross margin expectations include a less impactful promotional environment and small leverage gains in freight and logistics partially offset by headwinds in store occupancy. These factors are expected to drive approximately 40 to 70 basis points of improvement in the gross profit percentage in comparison to Fiscal 2024 results. Expected full year gross margin is anticipated to be in the range of 34.2% to 34.5% of net sales.
- SG&A as a percent of net sales is expected to increase by approximately 90 to 120 basis points in comparison to Fiscal 2024 results due to new store growth, wage inflation and increased incentive compensation, transaction fees and data processing costs including incremental investment in cloud-based technology solutions. The expected full year SG&A expense range is estimated to be 23.9% to 24.2% of net sales.
- Operating profit is expected to be in the range of 7.0% to 7.4% of net sales, a decline of approximately 50 to 90 basis points in comparison to Fiscal 2024 results.
- It is anticipated there will be debt outstanding under our line of credit for a majority of the year. We believe peak borrowings will be tied closely to the timing of receipts leading up to our peak selling seasons. Interest expense for the full year is projected to be approximately 10 to 20 basis points of net sales.
- Diluted earnings per share are anticipated to be in the range of \$8.00 to \$8.75 using an estimated full year tax rate of between 22.9% and 23.2% and an estimated weighted average diluted share count of approximately 11.6 to 11.7 million.
- Capital expenditures are anticipated to be in the range of \$65 to \$75 million with the largest share of this investment focused on new store growth, remodels, relocations, new store signage and improving the consumer experience.
- Our capital allocation strategy continues to include share repurchases and recurring quarterly dividends in addition to the capital expenditures noted above.
